同車はその後日本を代表する高性能車に進化し  
世界に高く評価されるに至りました  
その偉業をたたえ  
ここに日本自動車殿堂者の称号を贈り  
表彰いたします

Mr. Naganori Ito had been engaging in the development of the famous Skyline series for a long period and had developed the traditional GT-R as a person in charge of the type R32. His GT-R's achieved the winning of consecutive victories in the racing activities and they had been continuing to evolve and have acquired the worldwide reputation of high performance automobile symbolizing Japan's excellent automotive technology. The Japan Automotive Hall of Fame recognizes his efforts to lay the foundation and the achievements by presenting the title of inductee and bequeaths his accomplishments to our posterity forever.
